DUPLEX SKIRTS.

FASHIONS FOR 1866.

J. W. BRADLEY'S CELEBRATED

DUPLEX ELLIPTIC (OR DOUBLE SPRING) SKIRTS

ARE UNIVERSALLY ACKNOWLEDGED BY all ladies throughout the length and breadth of the land, to be the *most perfect and agreeable ever* invented. They are not equaled for elegance, lightness, durability, comfort and economy.

They will not bend or break like the single spring Skirts, but will preserve their *perfect and beautiful shape more than twice as long as any single spring* Skirt that ever has or can be made.

This invention consists of *Duplex* or two *Elliptic Steel Springs*, *ingeniously braided* together and *firmly* together, *edge to edge*, making the *toughest*, most *flexible*, *elastic* and *durable Spring* ever used.

The *wonderful flexibility* and great *comfort* and *pleasure* to any lady wearing the *Duplex Elliptic Skirt* will be experienced particularly in all crowded assemblies, opera carriages, railroad cars, church pews, arm chairs for promenade and house dress, as the *Spring* will *adapt itself* when in use to occupy small space as easily as a silk or muslin dress.

For children, misses and young ladies, they are *superior* to all others. They are unquestionably the *lightest*, most *desirable*, *comfortable* and *economical Skirt ever made*.

For sale in all first-class stores where First-Class Skirts are sold in this city, throughout the United States and elsewhere. AT WHOLESALE by jobbers who sell first-class Skirts, by the sole owners of Patent and exclusive Manufacturers.

FOR CLERK OF COURT OF APPEALS.

R. R. BOLLING,

OF FRANKLIN COUNTY.

Decision Upon the Proposition to Call a Convention of the Caucus of the Conservative Democratic Members of the Legislature, Held in Frankfort February 6th, 1866.

[For the Louisville Democrat.]

At a meeting of the Conservative Democratic members of the Legislature, held at the hall of the House of Representatives, on the 6th of February, 1866, on motion of W. R. Bradley, Esq., Representative from Hickman and Fulton, it was

Resolved, THAT IN OUR JUDGMENT THERE IS NOW NO NECESSITY FOR A CALL OF A CONVENTION OF THE PARTY, AND WE WOULD RESPECTFULLY URGE THE PARTY NOT TO CALL A CONVENTION, WHEN NO NECESSITY EXISTS FOR THE SAME.

J. B. BAUKER, Chairman.

D. ROBB, JAS. A. DAWSON, } Secretaries.

The above expresses the opinion of the Conservative members of the Legislature, by whom the matter was discussed fully, and to whom interested and other parties presented every reason to induce them to recommend a call. We hold that the judgment of this caucus is correct; that any effort to call a convention will tend to disintegrate and break up the party.

The vote in the caucus stood upon the motion of Mr. Bradley, fifty-six against a convention and nineteen for it.

☞ We are often told that there are but two parties in the country, the Republican and Democratic parties. This applies only to the free States. The Democratic party there has never been disorganized. The Democrats have held up the old banner. In the South all parties have been broken up. Only about thirty thousand followed the old Democratic flag in 1860 in this State. After the election, the mass of all factions further South drifted along into secession. We heard nothing of Democracy.

Indeed, it had been very absurd in Secessionists to claim to be Democrats. The country had been all the while under Democratic rule, and it had got to be so bad it was unfit to live in, so that the Democratic party had proved itself a failure, and was, therefore, unfit to be trusted.

The million and a half of Democratic voters North did not accept this secession verdict. It was an insult to them, and they very naturally resented it. They knew that secession was a failure, and it would have been all the more so, if it had succeeded in setting up an independent Government, which it aimed at.

We now hear a great deal about the Democratic party in this State. There has been a gathering together of good-looking individuals, with their faces washed and store-clothes on, pretending to be Democrats. They are composed of those who were not guilty of preferring the Union to secession, and of returned Confederate soldiers. This is about their own account of themselves. It seems to us they have made sooner mistake. Certainly this Democratic party, that was not fit to be supported in 1860, and that had managed the country so badly that it was necessary to leave it, are unfit to be trusted now. The "so-called" ought to reflect on this subject, and not run into the error of trusting a party again that they felt compelled to leave in disgust.

As we have said, however, there have been no trace of old parties in the South. We have had a general mixture of all factions and shades here for the old Union and for the Confederate Government. The question was not what sort of government we should have, but whether we should have one or two governments in the bounds of the old Union.

It has been thought a good time by politicians to make parties, and as the old Democratic party are the opposition to Radicalism in the North, they find it a good time to shriek loudly for Democracy.

The people outside of the State will bear in mind that this is not the old Democratic party of the State. It is not composed of that material. In fact, there were only twenty-five or thirty thousand left in the State. The rest bolted from the party in 1860, and soon dropt even the name.

This new organization is made up of shreds and scraps, stitched together by secession glue. We have looked over their central committee at Frankfort. The chairman and two others, out of seven comprising the committee, have misspent their lives in politics, fighting the Democratic party, and, we presume, never gave a Democratic vote in their lives, unless it was an accident. We have only known them in times past as uncompromising opponents of the Democratic party. Then there are two bolters from the party in 1860, who thought that the party North were unfit associates for them. We believe there are two—perhaps only one—that stuck to the party in 1860.

What is remarkable, too, we have the present Auditor, who has ever been a Whig or Know-Nothing, anything but a Democrat, and the Register of the Land Office, who is, perhaps, the solitary individual that didn't desert in 1860—both elected by bayonets in 1863.

In our opinion, the Union party of the State were not standing up to their numerous pledges. We aided to get up an organization against them, to crack up some outlandish doings they had all promised not to support.

The Democratic party everywhere in the North opposed the practices of the government we condemned. To condemn and then to aid what we condemned, didn't seem to us a very creditable proceeding.

But here were two of the high priests of this new party, who had the military on their side, turning bayonets upon us and our friends, and accepting office even under this bayonet election.

We ought to have a disquisition from Dawson and Samuels on the best and most approved methods of arresting candidates and voters in order to carry elections; or, if they have been converted, and now feel all the horror their party professes to feel at military interference with elections, they ought to resign the offices they obtained by foul means, before they set themselves up as the Sir Oracles of the Democratic party.

We presume, however, the committee is a pretty fair representative of the party. It is a sort of *scrap work* Democracy, with all sorts of shades and colors in the past. The committee that called the convention together is of the same variegated material. It is worse that Jacob's cattle—ring-specked, speckled and spotted.

And when we come to the organs—oh, what a Democracy!

Still, to add to all else, they are a pretentious, portentous and an awful party. We never read of such a long and solemn Democracy. Through nineteen tremendous resolutions they pile up rhetoric, and upset grammar, and make most startling and original observations about government. They give us lofty promises, and understand the game of brag. They are as gassoons as the seceders were when they left Congress. All this will not do for Democracy at all. It hasn't the ring of the old metal. It will not pass inspection. We must have a better Democracy than that, and we intend to have it.

☞ The editor of the Courier has a highfalutin paragraph from an address of the Union Central Committee of 1861. We have republished that ourselves, in order to induce the rabid in this State not to be too hard on rebels; inasmuch as such loyal people as our neighbors of the Journal, and the Attorney General, James Speed, promised in certain contingencies to do such exploits. We never saw the production until it appeared in print with our name to it. It is in the "lively" style of the Courier, and would suit its Democracy now.

We never knew before what became of that sword. We thought Attorney General Speed or the editor of the Journal had it hid away somewhere. But we know all about it now. Haldeman stole it, and ran away with it, dangling between his legs, as he fled south at the rate of two-forty.

That accounts for the cut in his paper, which, we presume, is exact, and that is the reason the committee never used it. Upon the whole, we are glad of it. It was in safe hands; it never hurt anybody. There it is in the Courier, in its sheath. It has never been drawn. So the editor need not tell fibs in his poetry about its being used up here, when he knows he had it himself.

The editor of the Courier does not know how valuable that paragraph has been. We have had to use it several times to help his friends. It was something in their behalf that such loyal men as the editor of the Journal and Attorney General Speed had attached their names to such highfalutin. We are glad, however, that the sword was in safe hands; that it did no harm.

LETTER FROM GEORGIA.

ROME, GA., June 1, 1866.

Editors Democrat—Gents: I propose to write you an occasional letter on the condition of affairs in Georgia. I would more cheerfully undertake the task if I had any assurance that my contributions, even in a slight degree, would aid in the restoration of peace and security under a Constitutional Union.

Prior to, and during the existence of, the rebellion, I labored with all the zeal of an enthusiast to help save our country from the calamities which the Abolitionists of the North and the Fire-eaters of the South were madly forcing upon us; whilst many occupying high positions, and men of superior ability, were similarly engaged. We had then Abolition Disunionists of the North, and Fire-eater Disunionists of the South, and in both sections these country-destroyers were in the minority, and yet they had power to render abortive every effort of conservative and patriotic men to hold them in check, and stay the tide of ruin.

The semi-madmen always comparatively few) yet exist—unchanged in purpose, and as ready to persecute Union men for their adherence to a Constitutional Union as they were during the war, and all they want here now is power to reorganize another reign of terror.

I was extremely anxious prior to and during the whole existence of rebellion to preserve the Government of the United States as it was; to maintain the Constitution untouched and unimpaired, and to perpetuate the Union under the Constitution forever. It was a good Government for the masses; it was a good government for the great laboring population of our country; it was good for the poor laboring white man, and it was good for the negro. The poor white man had all the necessaries of life comfortably within his reach, and the negro had the means of subsistence for himself and family secured to him by law in return for his labor. His condition was better then than it is now. The war has impoverished thousands of white men, and has made paupers and vagrants of a large number of blacks. A return to the Government as it was, including the good old times when negroes, old and young, blind or lame, in sickness and in health, had a master who was compelled by the statute laws of the State to treat them with humanity, and see to their wants, that they suffered no unnecessary privation. But this good old Government failed to give satisfaction to those who desired the establishment of privileged orders of aristocracies or monarchies, and hence originated the Southern scheme of disunion. The same ambitious motive actuated the Northern despots. An inordinate thirst for power controlled alike the actions of disunionists North and South. The Southern disunionist who must have a war to overthrow the hateful old Government; got whipped, and now the Northern disunionist is determined to oppose a restoration of the Government, fearing that the Union restored would strip him of power. At the beginning of the war we had Abolitionists, Secessionists and Union men. We have the same now.

You are contending every day with Haldeman, the Southern-Disunion editor of the Courier, and at the same time you are guarding the people against revolutionary schemes of disunion members of Congress. You truly represent the only true Union party in existence. That party is in the majority—has ever been in the majority. It once governed wisely, and it affords us the only hope of deliverance from the wreck of revolution.

A majority of the people of this State are anxious and willing to return to the Union. A majority of our members elected to Congress can be safely trusted. A. H. Stephens would be a wise counselor and a true man to the best interests of the country. The despotism of conscription forced men either into the rebellion or compelled them to leave the South. Having taken up arms under the rebellion is no sufficient evidence of disloyalty. There is no purpose in this State, on the part of the people, to ever attempt the renewal of rebellion or the re-establishment of slavery, however much our few hotheads may desire to again precipitate us into a revolution.

They (the people) are anxious that the restoration policy of Andrew Johnson be fully and permanently established, whilst a few of our madmen are in favor of the extreme measures of Stephens and Sumner, hoping thereby to find a justification for their rebellion and to be again elevated to position and power.

Yours truly, J.

☞ The Jews of Cincinnati have nearly finished a new synagogue, which will be one of the most costly places of worship in the country. The details are to be carried out to the perfectest possible completion. The carving on the small sandstone porches will bring the cost of these small adjuncts to the sum of $12,000. The great organ, which is nearly ready to be put up, has been contracted for at $10,000. The building is an exact reproduction of the ancient Oriental temples. It is to be capped by thirteen domes of various sizes, and will accommodate two thousand worshipers.

☞ The Pittsburg Commercial of the 5th says:

Rumors on the street to-day point to a heavy failure of a high functionary of one of our leading railroads. His liabilities are said to be enormous, and may involve other officials on the road. Outside operations and investments have produced the unfavorable turn in his fortunes. Still, to add to all else, they are a pretentious, portentous and an awful party. We never read of such a long and solemn Democracy. Through nineteen tremendous resolutions they pile up rhetoric, and upset grammar, and make most startling and original observations about government. They give us lofty promises, and understand the game of brag. They are as gassoons as the seceders were when they left Congress. All this will not do for Democracy at all. —An editor in Arkansas was lately shot in the head by a ball coming through the wall against a bundle of unpaid bills. The bullet could not go through them, by a long shot.

—Messrs. James T. Brady, Wm. B. Reed, Chas. O'Connor and ex-Governor Pratt, of Maryland, all counsel for Jeff. Davis, are now in Richmond, waiting for a call of the case and an expected adjournment of the same to October.

—"An honest man is the noblest work of the Lord," remarked an old Baptist with a hatchet, and there were marks under the throat, leading to the supposition that she had been severely choked. The body had the night dress on. It is supposed the remains were buried first in the stable and removed to the hog-pen for better concealment. Some blood was found in a closet, and a coat with blood on the sleeve. The coroner held an inquest, and a verdict in accordance with the above facts was rendered. Armstrong is a well-to-do farmer, and was not regarded as a man capable of committing such a heinous crime.

It is stated that he has for the last several years been indulging in intoxicating liquors pretty freely. Mrs. Armstrong was a lady of respectable connections. On Saturday week Armstrong flogged a colored girl, Mrs. Armstong taking the part of the girl and begging him to desist. This led to an altercation between them. He was seen that evening dragging her into the house. It is supposed by the neighbors that this led to the murder. Mrs. Armstrong's funeral took place yesterday, and was largely attented. They had a family of six children, the oldest between eleven and twelve years.

☞ Mr. Buchser, an artist of fame in Europe, has been sent by the Swiss Government at Berne to the United States for the purpose of painting a national picture for an American historical event, to be placed in the capitol. "Palais Federale," at Berne. He has been courteously received by Secretary Seward, and introduced upon the House floor by General Banks. Mr. Buchser will go to work at once to get up his designs, which he will send to Switzerland for approval.

MY CONNECTICUT.—In the light of Hawley, Barnum and Ferry:]

The darkest luck I ever had,
Something of "Providence" in it;
That Stevens' luck has made these screw,
Love them! Connecticut!
Then gratitude laid to day-old sore,
What heart but must the tale deplore
Arise and be [illegible] more,
Connecticut—Connecticut!

☞ The following is the conclusion of an epitaph on a tombstone in East Tennessee: "She lived a life of virtue, and died of the cholera-morbus, caused by eating green fruit, in the full hope of a blessed mortality, at the early age of twenty-four years, seven months and sixteen days. Reader, go thou and do likewise."

☞ A down-east editor, in a complimentary notice of a vigilant general, waxmurely by the omission of a single letter to call him a battle-scarred veteran. The poor man hastened to make amends in his next issue, by stating that it was his intention to have denominated the hero a bottle-scarred veteran.

Fenian Shots from the New York Herald's Battery.

—The Fenians might whip the British regulars and the Canadian volunteers; but when the army and navy of the United States also take the field against them, they are not equal to so big a job, as President Lincoln would have called it.

—Neutrality is a shrewd device to help Great Britain out of her scrapes and to assist her in getting other nations into trouble.

—Our National flags were not displayed in honor of the Fenian victory as the British flags were in honor of the rebel victories.

—Americans have not sent into Canada any small-pox and yellow-fever clothing, although the "neutral" Canadians sent us these infected garments when we had a rebellion to suppress.

—Shall this Government surrender Captain John O'Neil and the other Fenians taken by the Michigan? Did the British Government surrender Captain Semmes and the other rebels picked up by the Deerhound?

—It is a poor rule that will not work both ways; but how would the Canadians feel if we applied their rules of neutrality to the Fenian war?

—Suppose our border police were in league with the Fenians, as the Canadian police were in league with the rebels, what would become of Canada?

—A Justice Counsel is wanted in this country to let the captured Fenians go free with everything they have taken.

—The Canadians complain that we are not neutral enough, and the Fenians complain that we are too neutral. How is this?

—Should the Fenians fail it will be on account of the vigilance of the United States Government, and not on account of the bravery of the Canadian militia.

—We have not heard that the Governor General of Canada has been assassinated by murderers from the United States, but our President was assassinated by murderers from Canada. American and British sentiment are very different.

QUERY.—Is Secretary Stanton suppressing the Fenians in order to kill off the chances of any administration candidate for the Presidency? Has he no regard for the Irish Vote? Is he trying to make capital for Chase?

—Assassination funds have not been collected here as they were in Canada during the recent rebellion. Yet the Canadians complain that we are not neutral enough.

—Earl Russell declared that it was impossible to be really neutral. What does he think of the conduct of our Government?

WANTED BY THE FENIANS—A little neutrality of the Canadian pattern, assessed during our late rebellion. The American style does not suit them.

—Canada can escape all Fenian raids by coming into the American Union.

—Who is fighting the Fenians—the United States Government or the Canadian Government?

—Curses, says the old proverb, come home to roost; so does British neutrality.

—No incendiaries, with black valises, have organized here and started for Canada to fire Montreal, Toronto and other cities. Any certainty of retaliation from Canada to fire our cities when we were in trouble and Canada was "neutral."

—This Government does not supply the Fenians with arms and ammunition, as the British Government supplied the Confederates.

—Have any Canadian banks been robbed by Fenian raiders from the United States as our banks were robbed by rebel raiders from Canada?

—Great Britain, by taking advantage of her own bogus neutrality, and the real neutrality of more honest nations, manages to get the best of every trouble.

—This country is neutral in regard to the Fenian war; but we have not allowed Fenian Alabama and Florida commanders to leave our ports to prey on British commerce.

—The Canadian press is clamoring for more neutrality. Have these editors forgotten the rebel harborings on St. Lawrence Hall, Montreal, and the St. Albans raid?

—Our Government has not yet recognized the Fenians as a belligerent power. Why not? England recognized our rebels as soon as the news of their treason reached Europe.

—If our Government were as dishonest, as hypocritical, as deceitful, as treacherous and as false as England in its neutrality as the government of England was a year or two ago, one hundred thousand Fenians would now occupy Canada.

Horrible Wife-Murder in Delaware.

The Smyrna (Del.) Times, of May 30, gives the following details of a terrible wife-murder in that vicinity:

On Monday afternoon we received intelligence that Mrs. Caroline Armstrong, wife of A. L. Armstrong, living near Mount Pleasant (about two miles from Middletown), had been murdered by her husband. Since then we have been furnished with trustworthy particulars.

Mrs. Armstrong had been missing since Saturday a week, the 19th, but no special attention was given to the circumstance for several days, as Armstrong and his wife lived unhappily together, and she had, on several previous occasions, been induced to leave him for three or four days or a week at a time. Friends began to make inquiries by Friday and Saturday, fearing she had committed suicide, of which there seems to have been some apprehension on previous occasions.

Armstrong shared in the anxiety about her, and telegraphed to Wilmington, Smyrna and Dover, to learn of her movements. He also insisted that a millpond, about half a mile off, should be dragged for her body, for the recovery of which he offered a reward of $50. This seeming distress caused some suspicion to rest upon him, as it was unusual. He informed parties that she had taken her best clothing with her, and he supposed she would return in a day or two. Sunday the excitement was intense, search was made in various directions. It was noticed that when examinations were made about the hog-pen or stable, Armstrong became very nervous. Some fresh dirt was noticed about the manure and straw of the latter place, for which he accounted for by stating that he had tilted up a hole in the stable—that "it was no use to dig there." The earth was found to be soft, about the length of a lady. On further digging revealed the identical suit of clothing he represented she had carried off with her. He was arrested on the spot, and on Monday afternoon he was taken to Newcastle jail.

Directly after the arrest the body was found buried under the hog-pen. The skull was fractured in all with a hatchet, and there were marks under the throat, leading to the supposition that she had been severely choked. The body had the night dress on. It is supposed the remains were buried first in the stable and removed to the hog-pen for better concealment. Some blood was found in a closet, and a coat with blood on the sleeve. The coroner held an inquest, and a verdict in accordance with the above facts was rendered. Armstrong is a well-to-do farmer, and was not regarded as a man capable of committing such a heinous crime.

The Prisoners at Buffalo Held in $6,000 Bail Each—The Fenian Army Intrenched Near the Boundary Line—Gen. Sweeney's Order to his Men—He is to be Held to Bail—The Fenians Still Raising Funds—Funeral of Captain Meuter.

For the Louisville Sunday Democrat.

CINCINNATI, June 7.

The prisoners at Buffalo have been held to bail in $6,000 each to answer at court.

The Fenian army moved to-day from near St. Albans, and are intrenched near the boundary line. General Spear is in command.

Gen. Sweeney ordered his men, before leaving with the United States officers, that as they were on British soil, to spare the women and children but not the foe. The main army of Fenians have plenty of war material and provisions and their force is being rapidly augmented.

General Sweeney will be held to bail in a day or two, and will rejoin his army. A forward movement will be made into the interior to-morrow, and a desperate fight is anticipated.

Two hundred more Fenians left here to-night under sealed orders.

The Fenians here are despondent but still hopeful. They are still accumulating and raising funds. It is rumored that arrests will be made here to-morrow.

The funeral of Captain Meuter to-morrow, will be the largest ever known in the West.

All arms sent from here as marble slabs have safely reached their destination and are in the hands of the Fenians.

FROM CHICAGO.

Destructive Fire—Collision between a Locomotive and Fire Engine—One Man Killed and Several Others Wounded—Nabloont Typographical Union—The Fenian Excitement Subsiding.

Special to the Louisville Democrat.

CHICAGO, June 7.

At 1 o'clock this morning a destructive fire occurred in Eastman's Commercial College building, in the Metropolitan block, corner of Randolph and La Salle streets, doing damage to the amount of about $8,000. The building and furniture was owned by Wesley Munger, and fully insured. While the fire engine Economy was proceeding rapidly to the fire, in crossing the track of the Chicago and Burlington railroad, it was run into by a locomotive. The driver, Daniel Hart, was instantly killed and several other firemen were badly bruised. The fire engine was smashed up.

The National Typographical Union today decided to hold its next annual meeting in Memphis. To-night the delegates are attending the ladies' reception at Hyde Park Hotel.

The Fenian excitement has not run so high to-day. Several small squads of recruits arrived in this city from St. Louis, Quincy and other points and have gone on towards the front.

ARREST OF FENIANS IN ST. LOUIS.

ARMY STILL ADVANCING!

ST. LOUIS, June 7.

Dan. O'Madigan, William Henry, N. A. Martell, J. H. Conrad, Frank Murphy, T. J. Daily, M. W. Hogan, prominent Fenians of this city, were arrested to-day by the United States Marshal, and brought before the United States District Court, Judge Treat, presiding. Dr. Thomas O'Reilly was also arrested, but not being connected to the Fenian brotherhood, was released on bail. Deputy Attorney Grover called the case of M. W. Hogan as a test cause, which was proceeded with, but nothing of a criminal character was elicited. The Court then adjourned until to-morrow. Hogan, Henry, Conrad and Martell were released on $1,000 bail, but O'Madigan and Daily refused to enter into bonds, and were taken charge of by the Marshal. The trial will be continued to-morrow.

BOSTON, June 7.

Special dispatches from St. Albans state that orders were received last night to arrest Gen. Spear, as well as Gen. Sweeney, but the former suddenly left his quarters on horseback. Shortly before midnight the opinion was expressed that Gen. Sweeney was desirous of being taken, as he had plenty of time to get away.

A heavy storm prevailed during last night and this morning.

Thirty Fenians left St. Albans last night for Boston, refusing to pay their fare, and threatening to burn the town if put off the cars.

The advance of the Fenian army was at East Franklin last night, sixteen miles north of St. Albans.

NEW YORK, June 7.

It is reported that Col. Kerrigan is also arrested.

The Fenians are very despondent here to-day. The leaders say they can do but little more for their army invading Canada.

Roberts refused to accept bail or give his parole; he is under guard in a storehouse.

NEW YORK, June 7.

Mr. Roberts, President of the Fenian Brotherhood, has been arrested.

NEW YORK, June 7.

A dispatch from Cornwall, C. W., states that one hundred thousand men have been sworn in at Montreal for the defense of the city.

NEW YORK, June 7.

The Fenian President, Roberts, was today brought before United States Commissioner Betts, under a warrant issued on Wednesday for his arrest for a violation of the neutrality laws. He was arrested at his headquarters by L. Bell, one of the Deputy Marshals, and though surrounded by an excited crowd of adherents, he came on the simple request of an officer, without opposition. When his presence in the building became known the most intense excitement was at once manifest among the few who were aware of the fact, and the little room in which Commissioner Betts ordinarily hears cases was crowded to its fullest capacity.

The acting district attorney stated the contents of the warrant and that gentleman thought it right, as Mr. Roberts appeared without counsel and seemed to desire a trial, to accept two bonds in $10,000, one ordinary bail and the other to keep the peace. The case was one in which the latter bonds might fairly be asked, as Mr. Roberts' action tended to disturb the peace at least between nations.

Mr. Betts—I do not see that I have power to ask bail to keep the peace in such a case.

Mr. Roberts—I am anxious for a speedy trial in this matter, but cannot give bonds to keep the peace.

Mr. Betts—In my view of the law I do not see that I can ask it.

Mr. Roberts—I should like to know if I give bail for this charge I am liable to be re-arrested?

Mr. Betts—Certainly we can.

Mr. Roberts—Do I understand that to mean that to be re-arrested I must make war against some other nation than England?

Mr. Betts—No. An act against England, subsequent to this act, or a continuance of acts on which complainss were made, would be sufficient foundation for new warrants.

Mr. Roberts—Then I decline to give bail. It would be giving the marshal trouble to no purpose. I have bail here, and my reason for declining before was, that I understood the rule to be as your honor has plainly laid it down. I certainly would not give bonds to keep place to restrain me from resisting, or committing any act which I feel to be my duty as an Irishman. I have persons here who would go bail for Mr. Roberts in $10,000.

Mr. Allen—I do not understand the court to decide definitely on a question of bonds to keep the peace. I am aware that Mr. Roberts has bail at hand, and I suggest that the matter be left open until other matters can be adjusted, as he desires speedy trial.

The Commissioner then remanded Roberts to the custody of the Marshal, appointing Monday next, at 11 o'clock A. M., for a preliminary examination.

Roberts is detained at the Astor House. The warrant alleged that he did begin and set on foot the military expedition, and has provided, and is now providing, means for a military expedition, an enterprise to the territory of Upper and of Lower Canada, and oth r provinces or territories adjoining thereto. All of which territories are the part of the territory under the government and jurisdiction of the Kingdom of Great Britain, a foreign State or Power with which the United States is now at peace.

BOSTON, June 7.

A St. Albans special to the Herald reports the Fenians making for stanbridge, C. E., seven miles from the frontier of Vt. It is said that they have come into possession of a large quantity of arms, ammunition and provisions provided by agents who had been secretly collecting them from Canadian sympathizes. Rumor has it further; that horses have been found in sufficient numbers to mount all the cavalry division, and that sabres were also plenty.

Gen. Spear and staff have clandestinely left town.

There was a heavy seizure of arms by the United States forces between Ogdensburg and Pottsdam last night.

United States Commissioner Foote, of Burlington, has been summoned to this place, which indicates that Gen. Sweeney will have his case speedily investigated. It is believed he will be discharged on bail.

NORWALK, Ct., June 7.

There has been a great Fenian demonstration to-day. Major Berwait, of New York, and Lieut. John R. Roberts raised eighty-three recruits for the Fenian army here to-day, all of whom are very enthusiastic and want to go to the front as soon as transportation can forward them. They paraded the streets with green and American flags flying, but their proceedings were suddenly brought to a close by the Marshal here, who threatened the arrest of the leaders under the President's proclamation.

NEW YORK, June 7.

A special dispatch to the Boston Herald states that a large force of Fenians are at Pigeon Hill, near Higate, fortifying, and waiting for subsistence.

Gen. Spear was present, and it is rumored that there had been a slight skirmish with the Canadian militia this morning.

WATERTOWN, N. Y., June 7.

Two car loads of Fenians on their way North were put off the afternoon train at this place by the officers in command of the post, acting under orders from Gen. Meade. A party was also put off the morning train at Antwerp. No more will be allowed to go North. It is officially reported from Malone that the northern campaign has fizzled. The principal officers have been arrested, and the men are leaving for their homes.

NEW YORK, June 7.

The arrest of Sweeny and Roberts has caused the wildest excitement among the Fenians here. To-day an informal meeting was held in City Hall park and several speakers denounced the authorities at Washington, charging that they had played the Irish false, and said they would not again fight against rebels. The Fenian ardor is a good deal dampened and there were few if an enlistments today. There is a large and enthusiastic meeting at Cooper Institute to-night.

Resolutions were passed denouncing President Johnson, and threatening that the Irish population will not support him hereafter.

Col. Stager declared that the French Canadians hated the English as much as the Irish did, and only wanted an opportunity to rise. He stated that money was greatly wanted, and four thousand dollars was raised.

Col. Kerrigan, it was said, had 5,000 men, who only waited for transportation. Objections were made to persons in the uniform of the United States, from acting as British detectives.

FROM WASHINGTON.

XXXIXth Congress—1st Session.

SENATE.

WASHINGTON, June 7.

Mr. Ramsey introduced a bill for the relief of the United States Express Company, which was referred to the Committee on Finance. It provides for the issue of duplicate bonds, lost by the January 30, 1866, on New York & Erie Railroad, while in possession of the said Express Company.

Mr. Sherman, from the Select Committee on incorporating a National Telegraph Company, reported a bill to aid in the construction of telegraph lines, and to secure to the Government the use of the same for postal, mail, and other purposes. It authorizes the National Telegraph Company, which was organized April 16, 1866 under the name of Erie & Pacific, to construct and maintain lines through the United States along any mail or post road, provided there shall be no obstruction to ordinary travel by land or navigation on rivers, with the right to use stone and timber from public lands in the construction of such lines, and with grant of public land not exceeding one quarter section for each telegraph station.

The second section gives priority to the transmission of Government dispatches.

The third section prohibits the transferring of the rights and privileges to another company, without the consent of Congress; provided, that the Government may, at any time after three years, purchase the property of this company, at a price agreed to by five competent disinterested persons to be selected, one by the company, two by the Postmaster General and one by the other four. The last section reserves the right of Congress to grant similar privileges to any other company.

Mr. Harris from the committee on Private Land Claims, reported a bill to authorize the Governor of Louisiana to be furnished to the owners of certain lands in the city of St. Louis, which was passed.

Mr. Henderson called up a bill to grant lands in aid of the construction of the Kansas and the Neosha Valley Railroad and its extension to the Red river.

Mr. Henderson in opposition to the bill until 1 o'clock, when the morning hour having expired, the reconstruction resolution was taken up, the pending question being on the following amendment submitted in behalf of the Committee of Fifteen:

Strike out the second section and insert in lieu thereof the following;

Section 2. Representatives shall be apportioned to award the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed; but wherever the right to vote at any election held under the Constitution and laws of the United States, or of any State, is denied to any portion of the male inhabitants of such State, being citizens of the United States twenty-one years of age, or in any way abridged, except for participation in rebellion or other crime, the basis of representation shall be reduced in the proportion which the number of such male citizens twenty-one years of age in such State bears.

The section proposed to be stricken out is as follows:

Sec. 2. Representatives shall be apportioned among the several States, which may be included within the Union, according to their respective numbers, consisting of the whole number of persons in each State, excluding Indians not taxed. Whenever, in any State, the elective franchise shall be denied to any portion of its male inhabitants, being citizens of the United States, not less than 21 years of age, or in any way abridged, except for participation in the rebellion, or other crime, the basis of representation in such State shall be reduced in the proportion which the number of such male citizens shall be; one to the

Fenian Movements Continue Brisk—Special Dispatches to the Morning Papers.

NEW YORK, June 7.

Specials from Canandaigua say the movements of Fenians in that quarter continue brisk. Since Friday at least fifteen hundred passed through there toward the Canada border, and there is reliable information that nearly ten thousand are concentrated there.

The United States regulars, when sent to LeSalle Junction to secure the Fenian arms, were directed to load with ball cartridges, but after they were gone forty balls were found on the ground where they loaded.

A Kingston Canada West dispatch of the 6th says there are three thousand troops there, one-half being regulars.

The New York morning papers have the following specials from Washington:

Senor Romero still declines having any official intercourse with Santa Anna, although the latter has explained the explanation of his motives and objects to him.

The number of criminal persons issued since April 18th, 1866, is officially reported at 864 and for the month before 1,261.

The railroad companies of New England have struck for higher prices for carrying the mails.

In consequence of the Fenian demonstration upon Canada, it has been found necessary to create three new military districts in the Department of the East. The line of the northern frontier, from and including Erie, Pa., and Oswego, N. Y., will constitute the District of Ontario, headquarters at Buffalo, N. Y. Brevet Brigadier General W. F. Barry, Colonel of the Second artillery, has been assigned to this command.

That portion of the northern frontier, from and east of Oswego, N. Y., to the point at which the northern boundary of the State of New York leaves the river St. Lawrence, has been constituted the District of the St. Lawrence, with headquarters at Ogdensburg, N. Y. J. Vodges, of the First artillery, is assigned to this command.

That portion of the northern frontier, from the point at which the northern boundary of the State of New York leaves the river St. Lawrence eastwardly to Island Pond, New Hampshire, to include Plattsburg, New York, will constitute the District of Champlain, headquarters at St. Albans, Maj. A. A. Gibson, Third artillery, is assigned to this command. The district of St. Louis has been abolished.

The House Committee will report against admitting Utah as a State, because of them fanatical Mormon government.

A tri-weekly mail is to be established between Virginia City, Nevada, via Humboldt, to Boise City, Idaho. The contract has been made.

A dispatch from Richmond yesterday says the case of John C. Breckinridge is before the grand jury and a true bill for treason will be found.

Excitement in Fenian Circles—Warrant for the Arrest of President Roberts—Address to the Fenians—The Cholera at Quarantine.

NEW YORK, June 7.

There was continued excitement this night among the Fenian fraternity. Attorney Geneva Speed's order for the arrest of President Roberts caused unfavorable comment in the Brotherhood.

A warrant has been issued for the arrest of President Roberts, and placed in the hands of Marshal Murray, but Roberts could not be found.

Roberts has issued a characteristic address to the Fenians, denouncing the course of England during the late war, and has received much sympathy with and assistance of the rebel cause. He feels assured the men of the true and loyal American race will throw off the yoke of England, and fight for the preservation of this Republic. He bids his fellow-countrymen to be of good cheer, and promises that all will yet be well; closing with the words, "Brothers, fellow-countrymen, how many of us may fall our cause will triumph as sure as God lives and thunders and their descendants remain true to the gospel and water for which their race HAVEN been always conspicuous."

A Fenian meeting announced to take place in City Hall Park last night did not take place as the park was closed, and the Fenians were somewhat discouraged by the action of the Government. It is reported that one thousand recruits were raised last night for the Canadian cause. It is believed large numbers have secretly gone North since Monday, and that more will follow.

Since last report there have been eight new cases and nine deaths from cholera have occurred. Remaining on hospital-ship 16. The Board of Health have charge of the Seguin Point yesterday. Many threats, but no resistance made as yet. There is a sufficient force there to guard the grounds.

The Fenians to Encamp and Intrench on the Canadian Side.

NEW YORK, June 7.

A dispatch from Franklin, Vt., last night, says the Fenians, about 2,000 strong, will make a reconnoissance tonight into Canada to pick out the place to encamp, on the other side of the line, intrench and have the men come up. They are to gather supplies and forage upon the enemy, after which they will move. An attack will be made about daybreak.

United States Troops Sympathizing with the Fenians—Grand Movement Commenced.

NEW YORK, June 7.

A dispatch from St. Albans, yesterday, says Gen. Sweeney has concentrated there Gen. Mahan commands the movement, and Gen. Spear is bringing up the support. The United States regulars are reported as sympathizing strongly with the Fenians.

The British soldiers who were at St. Armand have gone to St. Alexanders. British accounts say there are five thousand Fenians between Newport and Malone. The grand movement appears to have commenced in earnest. Fenians and supply wagons were constantly arriving yesterday between St. Albans, East Highgate and Franklin.

Excitement Among the Fenians.

SYRACUSE, N. Y., June 7.

Great excitement prevailed among the Fenians last night. Six hundred dollars was raised at a meeting here, and one hundred and ten men were sent to the front.

Several car-loads of Fenians from the West also arrived this evening. They all passed East on the 1:30 o'clock train last night.

A Fenian Attack Expected.

NEW YORK, June 7.

A Montreal special, of the 6th, says an attack in force is expected at Philipsburg, and the British forces under Capt. Carter have fallen back on their supports at St. Johns. There is likely to be blood shed to-night or to-morrow. The forces at St. Johns are five hundred strong, including a battery of Armstrong guns.

A Prescott special, of the 6th, to Ottawa states that 3,000 Fenians are about to cross to Edwardsburg.

A Cornwall dispatch states that the garrison is 2,000 strong and confidence is felt in its security.

Seizure of Arms and Ammunition.

NEW YORK, June 7.

Dispatches from Rouland, Vt., say the United States authorities have seized large quantities of Fenian arms and ammunition at Essex Junction last night which arrived from Boston, Sweeney, however, would push forward that night or this morning. Montreal is believed to be the main object, though one or two lesser points may first be used as bases.

FROM WASHINGTON.

National Fair for the Benefit of the Sailors' and Soldiers' Orphans' Home.

WASHINGTON, June 7.

The national fair for the benefit of the Sailors' and Soldiers' Orphans' Home was inaugurated at Washington last night. Senator Wilson presided, and introduced Maj. Gen. Howard, Maj. Gen. Banks, Col. McKee, and finally President Johnson to the large audience. The President remarked that he came there merely to say a word in the cause of humanity, and to unite in the expression of the nation's gratitude to the nation's defenders. What nobler object than the present one could we have than the education of the destitute orphans of our soldiers would be a work of peace. There was a very large crowd present, and the industry exhibition was a complete success.

FROM BUFFALO, N. Y.

The Fenian Prisoners.

BUFFALO, June 7.

Six Fenian officers were brought before U. S. Commissioner Parker this morning. H. Mooney, of Buffalo, was released on bail of $5,000 to appear at this court on Thursday next.

Col. O'Neil, J. M. Fogarty, Wm. Smith, M. Folvey and James Ryan gave bonds in $5,000 to appear before the 16th inst. at Canandaigua to answer to the charge of Shipman, of the United States District Court. These men are now around town receiving the congratulations of their friends.

Fenians are still arriving here. Some stay and others have gone east. They are very reticent, but repose the old gag about going to work on railroads. None of them are armed, but occasionally a man has a saber.

P. O. Day, Head Center, is in New York for instructions.

The recent orders from Washington about arresting the leaders make considerable talk, but apparently the men mean good sports, and only await orders to attend to business. No means for their subsistence is provided, and they are scattered all over the city among their Irish sympathizers.

FROM BOSTON.

Arrest of General Sweeny.

BOSTON, June 7.

A St. Albans special to the Traveler says that at 1 o'clock last night Gen. Sweeney was arrested by order of Major Wilson, the commander of the regulars here. Gen. Sweeney was in bed at the Tremont House, and obtained no resistance. He is now in the officers' headquarters on the mission, under arrest.

Last night the train from Boston did not go through to Montreal via St. Armand, but via Rouse's Point, it being apprehended that the track would be torn up by the Fenians.

FROM CANADA.

The Canadians Satisfied with the Course of the U. S. Government.

TORONTO, C. W., June ..

All quiet at various points on the western frontier. The action of the United States Government, in sending the Fenian arms out of the country, has created satisfaction. Parliament meet to-morrow, when, no doubt, the Government will be empowered to suspend the writ of habeas corpus, in order to avoid a trial, by courts martial, lawless aggressors like the Fenians.

FROM THE SOUTH.

LIFE ELIXIR!

For the Prolongation of Life.

THE CELEBRATED ELIXIR ABOVE NAMED has been introduced into this country by the subscriber in test. Its elements, for the last fifteen years, have been tested and its invigorating properties have become so well known as to render its use almost general in the communities where it has been introduced in Paris and London, many of the most eminent and distinguished physicians have not hesitated to recommend its use.

The ELIXIR is composed entirely of vegetable ingredients, all of which are not only harmless in their effects, but highly beneficial to the human system.

Through its use the appetite is strengthened, digestion promoted, the blood purified and the whole system invigorated, rendering it particularly beneficial to persons recovering from contagious and other diseases.

Both combined as a tonic and stimulant, and as a drink, it gives a buoyancy to the spirits, and a healthy action to the whole system, unlike the effects of spirituous liquors, leaving no injurious effects behind.

In fact, it is the only remedy for the sick, which has been found to be a real restorative. Its effect upon the system is complete and permanent.

CAUTION—As the success of the ELIXIR has made many trials of counterfeits, but now consider that we have found a genuine article which we can recommend as a remedy against all and others.

CHOLERA DISARMED

The Chief Causes of Pestilence Destroyed.

DR. E. COURTARET'S DISINFECTING FLUID, secured by Letters Patent in the United States, and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, No. 78, second st., Henry street, N. Y. Office, 42 Cedar street.

This company, organized on a permanent basis with Dr. Courtaret, the discoverer and inventor in charge of its Laboratory, is prepared to furnish its unequaled Fluid and its invigorating purifiers, private and public closets, privies, cesspools, sewers, gutters, &c., and to supply the public with a perfect and immediate remedy for all kinds of disagreeable, foul, offensive and disturbing smells and gases, thereby increasing the value of the latter to every purchaser, and adding to the public welfare gases exist. These agents are described as "a subtle, powerful and diffusible fluid, which has been found to be the most effectual remedy in the settling gases and odors to chemical action, leaving in their place *odorless* and harmless compounds. It will not corrode metals, nor destroy the most delicate fabrics, and is not injurious to the health of persons or animals, even when inhaled in a concentrated state. It can be used in the sick chamber, in the parlor, or in the nursery, without fear of injury to the most delicate person or article."

Dr. Courtaret's Disinfecting Fluid is recommended by the highest medical authorities in the country, and has been used in the principal hospitals of New York, Brooklyn and Philadelphia, with the most satisfactory results. Its use is also recommended by the Boards of Health of the above cities, and by the Sanitary Commission.

Dr. Courtaret's Disinfecting Fluid is offered to the public in quantities to suit purchasers, at the following prices:

Pints, 25 cents; quarts, 50 cents; half gallons, 75 cents; gallons, $1 50; five gallons, $6 50; ten gallons, $12 50; twenty gallons, $25; fifty gallons, $60; one hundred gallons, $100.
